# superintendent

The difficult job of administrating the Bay Village School System falls on Dr. Urban J.D. Leavitt. Through his leadership, understanding and expert organizational ability, the Bay Village Schools have progressed to a high standard of education. As a result of his efforts, a variety of new courses were added to the curriculum at the high school. The services of a new library, plus many new books are now available to all senior high students. The appearance of the entire school both inside and out was improved by his influences. ## class of '66...

Every year has its own characteristics ... so it was with the sophomore class ... a year of controversies, comparisons and contrasts ... Were the teachers more strict, or the subjects harder? ... the struggle through **Julius Caesar** in English ... composing a short story ... dissecting animals in biology lab ... Sports took on a new light . The sophomores realized that they were no longer in the shadows. They could make their bids for varsity and cheerleaders. Their first year ... just the beginning ... sunlight filtering through school windows for the sophomore class ... many more days at Bay High, but this class, like those before it, made its own mark on the year, their sophomore year.
